

# KEY

## Is it Antarctica, the Arctic, or Both?

### Antarctica

### Both

### Arctic

Research stations  
 Treaty of 1959  
 Amundsen  
 Penguins  
 Mountain range  
 Continent  
 Vinson Massif  
 Has no native population  
 Ice so heavy, some land below...  
 World's largest desert  
 Coldest continent  
 World's largest desert  
 70% world's fresh water

24 hours daylight  
 Surrounded by ocean  
 Pollution  
 Extremely harsh climate  
 High latitude numbers  
 Whales  
 Auroras  
 Icebergs  
 Has magnetic pole  
 Cold climates  
 Tilt earth affects seasons  
 24 time zones converge  
 Winter in darkness  
 Monitor for global climate  
 Full of natural resources

Nearly surrounded by land  
 Young foxes live here  
 Siberia and Ellesmere Island  
 Nunavut established  
 No permanent weather stations  
 Northern Hemisphere  
 Sedna, goddess of sea animals  
 Thule  
 Summer in July  
 Peary and Henson  
 Name means "near the bear"  
 Polar bears  
 Tundra  
 Caribou  
 Inuit

**DIRECTIONS:** Identify if the fact corresponds to Antarctica, the Arctic, or both by placing the items in the appropriate circle.

Alternative activity: give each student slip of paper with facts, and then have students go to one side of the room for Arctic, the other side for Antarctica, and both to the middle. Allow students time to look up answer if unsure, or use for review.

24 hours daylight in January  
 Surrounded by an ocean  
 Permanent research stations from other countries  
 Nearly surrounded by land  
 Young foxes live here  
 Amundsen first to reach Pole  
 Pollution from other countries  
 Treaty of 1959  
 Extremely harsh climate  
 Siberia and Ellesmere Island  
 Nunavut established 1999

High latitude numbers  
 Penguins  
 Mountain range  
 Continent  
 Vinson Massif  
 No permanent weather stations  
 Has no native population  
 Northern Hemisphere  
 Whales  
 Auroras  
 Sedna goddess of sea animals

Icebergs  
 Has a magnetic pole  
 Ice so heavy; some land below sea level  
 Thule  
 World's largest desert  
 Full of natural resources  
 Summer in July  
 Americans Peary and Henson first reach Pole 1909  
 Danger shifting ice  
 Coldest continent on earth  
 Name means "near the bear"

Polar bears  
 Tundra  
 Cold climates  
 Tilt earth affects seasons  
 24 time zones converge  
 Winter is darkness  
 Caribou  
 Monitor for global climate conditions  
 Inuit  
 70% world's fresh water  
 World's largest desert
